LinkedIn | GitHub | Portfolio

A full-stack developer with over 3 years of experience building scalable web applications using React.js, Next.js, TypeScript, AWS, and Laravel. Adept in front-end and back-end development, API integrations, and cloud technologies. Skilled in creating human-centered, intuitive applications with a strong focus on user experience and problem-solving. Passionate about contributing to product innovation and collaborative development.

EXPERIENCE

One Community Global   *March 2024 – July 2024*

Full Stack Developer

Technologies – React.js, Redux, TypeScript, CSS

- Developed and optimized user interfaces and backend APIs using **React.js, TypeScript,** and **Redux**, enhancing application performance and user experience.
- Collaborated with cross-functional teams, including designers and back-end developers, to ensure seamless API integration and cross-browser compatibility.
- Actively participated in code reviews, debugging, and testing, contributing to application stability and improved performance.

FiatMatch   *May 2023 – August 2023*

Software Developer

Technologies – React.js, Next.js, TypeScript, Redux, Tailwind CSS, Material UI

- Built 10+ key features for a fintech platform using **React.js** and **Next.js**, completing the project ahead of schedule.
- Focused on UI/UX improvements based on user feedback, enhancing usability and engagement through design systems.
- Led the development of front-end components, collaborated closely with back-end teams, and integrated APIs, streamlining development workflows.

Infinity Brains   *March 2021 – October 2021*

Laravel Developer

Technologies – Laravel, MySQL, LAMP stack (Linux/Windows, Apache, MySQL, and PHP)

- Developed **RESTful APIs** and managed front-end integration for a hospitality management platform.
- Collaborated with DevOps Engineers and offering managers to ensure robust, scalable solutions.
- Utilized **Git** for version control and followed good coding practices like unit testing and peer code reviews.

Flying Bird International   *August 2019 – February 2021*

Software Developer

Technologies – PHP, MySQL, JavaScript, HTML, CSS

- Developed and maintained front-end components using **HTML, CSS**, and **JavaScript**.
- Collaborated with clients to understand requirements and translated them into technical specifications for front-end development.
- Resolved technical issues, contributing to smoother system updates and enhanced user satisfaction.

Narola Infotech   *January 2019 – July 2019*

Software Developer

Technologies – PHP, MySQL, JavaScript, WordPress, Laravel, HTML, CSS

- Contributed to a project focused on showcasing tech reviews and the latest news and integrated Amazon product API for enhanced functionality.
- Engaged in learning programming languages and coding standards through participation in learning sessions.
- Swiftly resolved errors, surpassing client expectations, by object-oriented programming concept.
- Achieved a 15% reduction in query execution time, enhancing overall system performance.

EDUCATION

Humber College, Toronto   *January 2022 – August 2023*
Post Graduate Diploma – Information Technology Solutions – 8.50/10

Sarvajanik College of Engineering and Technology, India   *August 2015 – May 2019*
Bachelor of Engineering – Information Technology – 8.59/10

PROJECTS

TaskMaster – [View Project](#)
- Developed a task management website using **MongoDB, Express.js, React**, and **Node.js (MERN Stack)**.
- Built responsive, dynamic UIs in the **React ecosystem**, utilizing hooks, context API, and **design patterns** to ensure a smooth user experience.
- Implemented authentication using **JWT** and **Passport.js**, enhancing security and user management.

TECHNICAL SKILLS

- **Frontend Development –** React.js, Next.js, Redux, Angular.js, Vue, Tailwind CSS, Bootstrap, CSS3
- **Backend Development –** Node.js, Express.js, TypeScript, Docker, PHP, Laravel, Java
- **Web Technologies –** HTML, Ajax, JavaScript, jQuery
- **UI/UX –** Figma, Design Systems, User-Centered Design
- **Database Management –** SQL – MySQL, NoSQL – MongoDB, Amazon AWS
- **Version Control –** Git, GitHub
- **API Development and Integration –** RESTful API, GraphQL, Third-party API integration
- **Security and Authentication –** Passport.js, JSON Web Token (JWT)
- **Collaboration Tools –** Postman, VS Code, Jira
- **Development Methodologies –** Agile/Scrum
